Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is in response to Applicants' preliminary amendment filed on August 6, 2001. In view of Applicants' preliminary amendment, the election to one of the following inventions is deemed necessary. The restrictions are as stated below:

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group 1: Claims 1-4, 9-11, 14-18, and 27-31 are drawn to a system for controlling money/purchasing card transactions, classified in class 235, subclass 375.

Group 2: Claims 5-8, 12, 13, 26, 36-39, 44, and 57 are drawn to a credit card system for reconciling transactions, classified in class 705, subclass 38.

Group 3: Claims 19-21 are drawn to a system for accepting and providing approval of credit card transactions, classified in class 705, subclass 38.

Group 4: Claims 22, 23, and 53-54 are drawn to a card system for handling purchasing card disputes, classified in class 235, subclass 380.

Group 5: Claims 24-25 are drawn to a system for credit card access, classified in class 705, subclass 38.

Group 6: Claims 32-35, 40-43, 45-52, 55-56, and 58-62 are drawn to a system or method for providing financial system limits, classified in class 705, subclass 64.

The inventions are distinct, each from the other because Inventions 1-5 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility (See MPEP § 806.05d), specifically demonstrated as follows:

- Invention 1: providing control and accounting for money card transactions within the financial management system.
- Invention 2: automatically reconciles the transactions.
- Invention 3: accepting credit card transactions and providing for approval of the transactions.
- Invention 4: automatic handling or tracking of disputes for credit card transactions
- Invention 5: a user terminal couple to said communication system and allowing a user access to the credit card information.
- Invention 6: providing financial system limits.

Because these inventions are distinct for being separately usable, as shown above, examining the inventions together would require searching for a reference teaching the unique element(s) of each invention that are not found in the remaining Inventions. This would be quite burdensome, requiring multiple searches, and thus the restriction for examination purposes, as indicated, is proper.

3. Applicants are advised that the response to this requirement to be complete must include an election of one of the inventions 1-6 to be examined even though the requirement be traversed.

4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
5. A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P. 710.02, 710.02(b)).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel S. Weis whose telephone number is (571) 272-2025. The examiner can normally be reached on 8:30 to 5:00, Monday - Friday.
